Who makes Colorable?

100% of Colorable's products are sourced from ethical factory, WORK+SHELTER, a safe space where women in need in India can come to work and make a fair wage. Your purchase supports alleviating poverty and creating a more equal world. Learn more at www.workshelter.org

The purpose of our brand is to bring a fun and life-brightening, relaxing, ethical, and social low-cost creative activity to women across the US/Europe. The participants get to see and hear the story of WORK+SHELTER. Co-founder Namita Taneja Krul will tell you the story of empowering women in need and how the marginalised women are being trained to improve their livelihood.

The Tote bags are made of organic cotton, procured through FAIR trade, and made by impoverished women at W+S in New Delhi. These bags are fashionable "Tote" bags popular amongst all age groups around the world. The bags would come printed with designs, and the participants can color them with their own choice of creativeness.
